TO: Executive Committee
Committee of Counsel

FROM: Meeting with Dr. Edward N. Brandt, Jr.
Assistant Secretary for Health

There is attached a memorandum summarizing the meeting which Stan Temko and I had with Assistant Secretary Brandt and his associates this past Wednesday, March 10, 1982. The memorandum goes into some detail to give you a complete account of the meeting.

Incidentally, at today's hearings on S. 1929 before Senator Hatch's Committee on Labor and Human Resources, the provisions in his bill on disclosure of additives were supported vigorously by two of the physicians testifying in favor of the legislation.
